SUMMARY

Mobile Engineer with 4+ years of experience delivering Android and iOS apps, SDKs, and hardware-connected clinical systems across healthcare, government, industrial, and enterprise domains. Skilled in Kotlin, Jetpack Compose, Java, SwiftUI, and Flutter, with strong foundations in Clean Architecture, CI/CD, and automated testing. Experienced in leading engineers and shipping reliable production systems.

SKILLS

- **Programming Languages:** Kotlin, Java, Swift, Dart, TypeScript, JavaScript, PHP, Python.
 - **Frameworks:** Jetpack Compose, Kotlin Multiplatform, SwiftUI, Flutter, Vue, React Native, Laravel.
 - **Mobile Engineering:** MVVM, MVP, TDD, OOP, Modularization, Reactive Programming, Dependency Injection, CI/CD, Jenkins, Firebase.
-

WORK EXPERIENCE

Mobile Developer

March 2025 - Present

RUISI International Co., Ltd. - Singapore

- Building production Mobile apps that connect to 5+ medical devices (USB/BLE), enabling live streaming, calibration, and remote control with resilient connections and fault-tolerant workflows used by clinicians. Researching and prototyping BLE GATT, real-time video, and on-device ML.
- Partnered with firmware and backend teams to define protocols and harden flows, shipping clinic-ready Mobile apps with robust offline/retry and end-to-end observability.

iOS Developer, Contract

October 2025 - December 2025

Owlies - Indonesia

- Shipped end-to-end iOS features using Clean Architecture and MVVM in Swift, supported by comprehensive unit + UI test suites to improve release confidence and reduce production regressions.
- Implemented Superwall Paywall end-to-end on iOS, including a 5-second delayed trial prompt that improved purchase intent and increased conversion by ~70% (trial-to-paid / paywall-to-purchase).

Android Engineer

February 2024 - June 2024

Traveloka (Travel Activities Department) - Indonesia

- Refactored legacy modules and fixed bugs in the Traveloka Android app (50M+ downloads), improving responsiveness across device tiers and strengthening release stability.
- Implemented new features end-to-end using Clean MVVM and MVP architecture. Wrote unit/UI tests across Kotlin and Java, lifting coverage to 70%+ and reducing regressions during releases.
- Researched and proposed integration strategies for Jetpack Compose and modern Android libraries to improve developer efficiency and UI responsiveness.

Tech Lead

January 2022 - January 2024

Freelanxx.it - Indonesia

- Designed, built, and shipped 20+ mobile and web apps across education, retail, and government using Kotlin/Java (Android) and Flutter (cross-platform).
- Led a 4-person team, ran Agile sprints, coordinated cross-functionally, and standardized CI/CD across GitHub, GitLab, and CircleCI.

Mobile Developer

July 2022 - August 2022

Schoters - Indonesia

- Delivered Android features in Kotlin with Firebase Realtime Database (live updates) and Crashlytics (instrumentation, alerting), reducing repeat crash types during the program.
- Practiced version control (Git) and participated in collaborative code reviews as part of a remote internship program simulating real-world development environments.

EDUCATION

Informatics Engineering2021 - 2025, Semarang, Indonesia

Universitas Dian Nuswantoro (GPA 3.83 / 4.00)

- Undergraduate Thesis: Development of an Android-Based QR Code Attendance Application with AES Encryption and Device Binding to Prevent Fraud.

LEADERSHIP EXPERIENCE

Google Developer Student Club UDINUS (GDSC Udinus)August 2023 - July 2024

- Head of Event Core Team: Effectively led, organized, and managed 5+ tech events & bootcamps with 200+ attendees, driving growth and engagement across the developer community.
- Android Development Speaker: Delivered Jetpack Compose workshops with 200+ participants, featuring live coding, hands-on labs, and open-source sample repos.

Dinus Open-Source Community (DOSCOM)August 2022 - July 2024

- Head of Human Resource Field: Actively led and managed 80+ community members across Programming, Multimedia, and Network divisions, driving training, mentorship, and knowledge-sharing culture.
- Android Development Mentor Lead: Trained mentors and taught students in Kotlin, OOP, and Android fundamentals. Conducted Android workshops at 3 vocational high schools (SMKN 9 Semarang, SMK Palapa, SMK Nurul Barqi)
